STÜBER SYSTEMS agrees partnership for cloud-based software with Actions Microelectronics

STÜBER SYSTEMS is pleased to announce a long-term global partnership with Actions Microelectronics in the field of cloud-based software. Actions Microelectronics and its subsidiary Winner Wave are well-known for EZCast Pro, a leading technology in the field of wireless presentation. Winner Wave offers a wide range of high-quality products for sharing almost any device screen to a display using their EZCast Pro and QuattroPod Series. STÜBER SYSTEMS has been a premium partner of EZCast Pro for many years.

Combining the experience of many projects with EZCast Pro and QuattroPod products on the one hand and software development on the other, STÜBER SYSTEMS is now taking the next logic step: Developing a cloud-based platform that supports EZCast Pro and QuattroPod products.

The first results of this new software partnership are expected to be seen in 2023.

About STÜBER SYSTEMS GmbH, Berlin

STÜBER SYSTEMS develops and sells software for education management (DAVINCI, MAGELLAN, ENBREA), digital signage (CONFIRE SHOWTIME) and classroom management (CONFIRE SHERLOCK). Our portfolio is complemented by specialized hardware solutions in the areas of digital signage (CONFIRE E-BOARD) and wireless presentation systems (QuattroPod, EZCast Pro).
